INTRODUCTION.

It may not be improper for me to say a few words about this Catalogue, by way of explanation.

As the title-page shows, it consists of three distinct collections, with the addition of a few lots at the end from a fourth.

The first part consists almost entirely of Americana, with the exception of a few lots; in this part of the Catalogue are some very fine coins, especially in the silver. The '94 dollar is a good one, and the '36 is also *very* fine. The '52 is one of the finest I ever saw.

But the limited space of an introduction is too small for an enumeration, and I leave the collector to judge for himself.

In the second part are some of the very best pieces purchased at the Stenz sale. Among the finest of them are the pound pieces and "Carrara" medals.

In the portion of the collection devoted to Mr. Cram's coins, beginning at lot 477, the collector will have a chance to bid on some of the finest specimens of American coins ever offered for sale.

Among the cents and colonials are some very fine specimens. Lot 591, "Oregon Exchange Company," is a coin which is worthy of the attention of buyers; but the chief charm of this collection is its silver.

The quarter of 1815 is a beauty; the 1820 is fine. The 1805 dime is one of the finest ever offered. There are also some very good half dimes.

As a whole, it is a very good collection, and contains a great many coins of much importance, and purchasers have a chance to make some good bargains.

PROT. LEG. ANG. LIBER. PAR; date below; usual motto around. XX and three Welch plumes above the legend. Very fine.
